POO YI SING

WEB DEVELOPMENT BOOTCAMP GRADUATE

PROJECTS

ConnectFour (Jan 2018)

<https://goo.gl/CsWRUv>

Javascript

A two player game which a player wins by connecting four discs in a line either horizontally / vertically / diagonally.

Social Media Aggregator (Dec 2017)

Commissioned by SGAG

Ruby on Rails, PostgreSQL

An automated statistical reporting application for SGAG's staffs and clients.

- Reduces the time needed (up to 50%) to produce performance reports to their clients

- Live performance monitoring

- 3 levels of authentication for security

(Due to non-disclosure agreement, I am unable to provide access to the application.)

GundamFactory (Nov 2017)

<https://goo.gl/DeKBhK>

Ruby on Rails, PostgreSQL

An E-Commerce website selling Gundam models with administrative functions.

DragonTweet (Oct 2017)

<https://goo.gl/Rxaz81>

Ruby on Rails, PostgreSQL

My clone of the social networking service Twitter. The theme for the application is popular manga DragonBall Z.
